

Triad Adventist Fellowship

We invited the Chief of Police for the city of High Point to attend our church on February 7, 2019. We were in the middle of a sermon series called, I Love My Church. That particular week the message was about impacting our community. In addition to the Chief of Police, other city officials were also in attendance. I invited the Chief to talk to us about the Opioid epidemic in High Point. He mentioned how the police department had been promised Narcan dosages (this counteracts a heroin overdose) from organizations that failed to follow through. The police department then purchased the Narcan with their own limited funds and has been struggling to replenish their supply. We presented them with a check to help them purchase Narcan. We have continued to

minister to those impacted with drug addiction. We have partnered with another church to start a Celebrate Recovery chapter held in our facility. The funds from Project Genesis made all this possible.
